- Wireshark
- Metasploit
- Terraform IaaS

WORK HISTORY

03/2024 to Current

Cybersecurity Trainee

Nukudo – San Antonio, TX

- Developed hands-on skills in identifying and mitigating security vulnerabilities through simulated cyber attacks, and presenting findings to both technical and non-technical audiences
- Collaborated with peers on group projects to analyze and solve complex cybersecurity challenges, fostering teamwork and communication skills
- Currently preparing for industry leading certifications (OSCP)
- GCIH Certified - August 2024

01/2023 to 02/2024

Data Specialist

Ellana Construction Consultants – New York, NY

- Maintained large volumes of data related to construction estimates, project costs, and material inventories
- Prepared and distributed reports, presentations, and other materials
- Utilized various software tools, including spreadsheets and proprietary data management systems, to input and organize data efficiently
- Collaborated with project managers and estimators to gather necessary information and clarify any discrepancies in data entries.

07/2021 to 01/2023

Office Manager

Advanced Neurology P.C. – Brooklyn, NY

- Responsible for patient and part-time staff scheduling for a busy 20-employee neurology clinic, streamlining office workflows, and ensuring orderly day-to-day functioning of the clinic: stocking inventories, ordering lunch, and dealing with noncompliant patients
- Primary point of contact for patient insurance authorizations, pharmaceutical representatives, and miscellaneous B2B inquiries.

EDUCATION

05/2019

Bachelor of Science: Nanoscale Science
SUNY Polytechnic Institute - Utica, NY
Cum Laude with Honors

CERTIFICATIONS

- GIAC Certified Incident Handler Certification (GCIH) - Completed August 2024
- Offensive Security Certified Professional (OSCP) - Expected October 2024
